1. Application Navigation Structure

1.1 Global Navigation Map

The AEGIS application follows a **sidebar-first navigation** pattern with contextual top-bar actions. The primary navigation hierarchy is organized by functional domains.

6

Dashboard Setup

→ Auto-generated dashboard based on ingested data → Customize widgets → Set up notifications

2.2 Journey 2: Daily Sales Manager Workflow

Sales Manager Daily Flow

Persona: Sales Manager **Goal:** Review pipeline, score leads, prepare for meetings

1 Login & Dashboard

→ SSO login → Role-adaptive dashboard shows: pipeline value, hot leads, today's meetings

2 Lead Review

→ Intelligence Hub → Leads → AI-scored leads list → Click lead → View enriched profile, engagement history

3 AI-Assisted Outreach

→ Select lead → "Draft email" → Sales Agent generates personalized email → Edit & send

4 Meeting Prep

→ Meeting Intelligence → View upcoming meeting → AI generates prep brief with client history, talking points, risk flags

5 Pipeline AI Chat

→ AI Workspace → "What's the forecast for Q3?" → Sales Agent analyzes CRM data → Responds with chart + insights

6 Proposal Generation

→ Automation → Proposals → Select template → AI fills client details → Review → Export PDF → Send

2.3 Journey 3: Marketing Campaign Analysis

Marketing Manager Campaign Flow

Persona: Marketing Manager

Goal: Analyze campaign performance and plan next steps

1

Dashboard Overview

→ Marketing-focused dashboard → Campaign KPIs, channel performance, content metrics

2

Campaign Deep-Dive

→ Marketing Intelligence → Select campaign → AI-generated performance summary → ROI breakdown → Audience insights

3

Competitive Research

→ AI Chat → "What are competitors doing in social media?" → Research Agent scours web → Summarizes trends

4

Content Strategy

→ Ask Marketing Agent for content calendar → AI generates suggestions based on trends + past performance

5

Presentation for Leadership

→ Automation → Presentations → "Create Q2 marketing review" → AI builds slide deck → Export PPTX

2.4 Journey 4: Financial Review & Forecasting

Finance Manager Flow

Persona: Finance **Goal:** Review financials, detect anomalies, forecast

1 Financial Dashboard

→ Revenue trends, expense breakdown, cash flow status, budget vs actuals

2 Anomaly Detection

→ Financial Intelligence → AI flags unusual transactions → Click to investigate → Agent explains context

3 Forecasting

→ AI Chat → "Forecast Q4 revenue" → Finance Agent runs predictive models → Presents scenarios (best/base/worst)

4 Scenario Planning (Digital Twin)

→ Analytics → Digital Twin → "What if we cut marketing by 15%?" → Simulation runs → Impact visualization

2.5 Journey 5: HR & Recruitment

HR Manager Flow

Persona: HR **Goal:** Handle recruitment and policy queries

1 Policy Queries

→ AI Chat → "What is our remote work policy?" → HR Agent searches knowledge base → Responds with citation to policy document

2 Resume Screening

→ Upload batch of resumes → HR Agent scores and ranks candidates → Shortlist generated

3 Job Description Generation

→ AI generates JD from role requirements → Optimize for inclusivity → Export for posting

2.6 Journey 6: Customer Support Workflow

Customer Support Flow

Persona: Customer Support **Goal:** Resolve tickets efficiently using AI

1

Ticket Dashboard

→ Customer Intelligence → Open tickets, priority sorted, AI-categorized

2

5. Error Handling & Edge Cases

Scenario	User Experience	System Behavior
Network disconnection during chat	Toast notification, auto-reconnect with spinner	WebSocket reconnect with exponential backoff
LLM API timeout	"AI is taking longer than expected" message, retry button	30s timeout, fallback to cached/smaller model
File upload failure	Error toast with specific reason, retry button	Celery task retry (3 attempts), dead-letter queue
Unauthorized access attempt	Redirect to login with "Session expired" message	401 response, audit log entry, rate limit check
Agent task failure	In-chat error message with context, suggest rephrase	Error logged in LangSmith, fallback agent strategy
Empty RAG results	"I don't have enough information about this topic"	Log query for gap analysis, suggest document upload
Concurrent edits conflict	Optimistic UI with conflict resolution modal	Last-write-wins with version history
